Newsletter # 2
2016

Hello again!

I have some news for you; everything about the Shift now seems to be moving forward in a positive way even though some of my slightly more odd sources of information said that we were meant to cross over to the New Earth in March. I thought it seemed a bit strange with that particular point of time. The whole thing didn't make sense time-wise or organizational-wise with the way extraterrestrials usually plan transitions together with us contact persons. It was said that this was a wish from Mother Earth, but still…

Since ancient times, all possible forms of extraterrestrials, angels and lightbeings haven't just visited us here on Earth; they have also patiently waited for this particular time to arrive. So why would they now suddenly let us down and not be present when we are about to cross over. Yes indeed, why would we cross over without their support and assistance? That would have been the result if we had crossed over in March 2016. Naturally, it didn't happen then and it won't happen like that later; everyone will be there for us. That date in March has passed and that is good. But still, something did happen in March! Everything became silent and still. It was as if nature and the animals held their breath and that all forms of beings in nature did the same. Something good really did happen, but despite that, some of the lightbeings didn't feel good about this strange part of the Shift. The frequencies they need in their lives shifted. So, this day in March and a few days after that, a certain form of nature's lightbeings left this Earth. It was not their decision, but that of Mother Earth, so they moved and they are now on The New Earth, but what will this mean for us?

Aurora Borealis, rainbows and the light itself, especially in the spring and summer, will be influenced since those lightbeings worked with, and balanced, this. Even the shine and glitter on dew and across waters, belonged to their area. It doesn't matter if Aurora Borealis is connected to ions in the atmosphere or if rainbows are an optical effect; they did things with it that we can't understand and now they are all gone from Earth. Neither we nor animals and nature will suffer because of it but still. The shine, glitter and nuances of

color might be partially missing or less tangible, but… It still shows that we are closer to our goal.

Since everything has been delayed, Mother Earth wanted to help the innocent; that is why nature's lightbeings were moved to the New Earth ahead of time. Mother Earth really wanted to bring over all forms of nature's beings and also all animals, since she suffers with them over their situation. But it had never worked for us; with our strong need of other beings as a source of food. On the New Earth we won't eat other fellow beings.

What will happen now, is that all other forms of beings of nature, apart from nature's lightbeings and our animals, will stay here and cross over together with us.

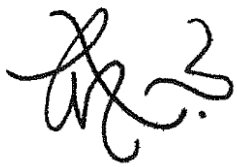

The new Spiritual Leader

The New Spiritual Leader now has a new special sign; you can also use the same sign for all spiritual contact. Not only with your guides and guardian angels but also in a more general contact with extraterrestrials, angels and lightbeings. Some people also have light-guides.

Some extraterrestrials will be coordinators for our transition to the New Earth. Their names are: Naii'so and Shir'pa. On the Old Earth there are also such people and their names are: Sven (Sweden and the Nordic countries) Roger and Mary (USA and South America) and Steve (England, France and Germany) and others who work in similar ways. There will be a few more active participants at the actual transition and the Shift itself. Quite a few new ones have signed on and are being trained right now.

One thing that might be interesting for you to know is that the new Spiritual Leader, and to have one, actually started on The New Earth. The people there were the first ones to get one.

New Sign for The New Spiritual Leader

The Shift itself

Many people will have strong emotions but in the midst of things they will still feel safe, well cared for and they will know. That is why it is so important with the Spiritual Leader because people will have all answers through that Spiritual Leader. Now, everyone on

Earth have their own Spiritual Leader and some people in India Peru and Thailand have started to react to that.

New on The New Earth

People and animals on The New Earth can't stop living while they are waiting for us, so they have moved on with their own evolvement and through doing that they have developed both their world and ours. They have implemented quite a few new things that weren't meant to be implemented just yet. They waited and waited for all of us to cross over but now they have to be able to live a full life so new things are blossoming within all areas on The New Earth.

They are building new forms of man-made vehicles; among other things a "car" that stays 15 centimeters above the topography of the ground. Industrially, they are developing new forms of technical gear and a multitude of machinery. They are also manufacturing incredible and exciting innovations. It seems like everyone is coming up with new ideas almost every day. Everything is well adapted to the environment and completely without pollution and any waste.

A system has been implemented; a system that has nothing to do with money but that substitutes the one they had from the beginning. It's called an equality system.

Everyone on The New Earth seems to like exercising, so a multitude of new sports have been introduced during last year and this spring. Even new forms of harmonizing body movements and forms of dancing are popping up everywhere. They even bring forth the old and wipe the dust off that now that humans remember their previous lives.

They also manufacture a large number of new forms of musical instruments that sound fantastic in the incredibly clear and clean air.

The cultural interest makes them re-create some beautiful ancient monuments; previous-lives experiences are the influence here as well.

The people on The New Earth have received a form of spiritual opening so that they can easier understand each other's languages and also their ideas and cultures. So they now use a temporary language. This has happened before the real new language – our new language – is ready to be used by us all. In the same way, we will, once we are there, open up spiritually to the universal language on The New Earth.

Another piece of news, inspired by the extraterrestrials that visit The New Earth, is to have extraterrestrial sex; but now in human form. They have now learnt how to share the soul with their partner

and to experience, not only complete satisfaction, but also spiritual satisfaction and complete harmony.

They are still waiting to start counting time in their form of hours, weeks, months and years. They have a temporary system they use since we, once we finally get there, will manifest ourselves in time and space and start from day zero and second one.

At present, humans, animals and nature that die, cross over to The New Earth faster and faster. It takes 14 minutes for a human at the most, and 2 minutes for animals and nature.

The time after The New Earth

We were meant to stay on The New Earth forever. Then, they were talking about nine generations with an average life span of 140 years. They are now talking about three generations, thanks to the entire Universe now on the way to being elevated to something much higher spiritually and we are naturally on that trip as members of The New Earth and the Universe. We, all of us, everywhere and in all creations, will cross over to the Beyond; to the Beyond that is the source of the beginning of all creations. You might already know that there is a multitude of different creations and colors of the creations; not just ours. We and our creation is called the Blue Creation since a blue spark appears when atoms are being pressed together or torn apart. Our own Universe exists in our Creation but also many smaller universes that are attached to ours and also a Parallel Universe. Other than that, there is a big outer part around the entire Universe; that part has been created to that place by the Beyond. The Beyond has also created other things here – inside our Universe – like for instance back doors leading in and out and to and from our Creation. The Beyond has also created energy lines and tunnels in space and on the ground on the planets etc.

Right now many new forms of systems and lines in natured and on our planet are created; systems that link us with nearby planes and with Then New Earth. Between the new world and the old one, there is like an umbilical cord that exchanges energy between the two. This will also give our Mother Earth more contact with her soul which she has passed to The New Earth. Since the spirit of Mother Earth is still here with us, she won't die. Otherwise, a human being can choose to let the soul leave the body, but if the spirit leaves the body, we die. The spirit is life! But it is also the divine spark of the soul.

If you want to feel other planets, you can now do that in a better way than we used to be able to. It is now done through ceremonies with stones, signs or symbols.

Ceremonies

There are many different forms of Ceremonies we can do in order to feel other planets. You can also use stones, signs and symbols etc. You can also combine them all; see below, at the same time.

Ceremony 1 for you yourself or with others, please see below.

Ceremony 1

Choose a place you like, indoors or outdoors. Stand or sit, alone or in a group. It is good to light a candle.

Start by bringing down a clear and strong golden light from above.

Think: Etsira é na cki aranech ma. (You can also write the words on a piece of paper and touch it.)

Choose: You now choose which planet you want to see, e.g. The New Earth, Mars, Jupiter etc. Just pick one at a time.

Think: Etsira é na koniraich. (You can also write the words on a piece of paper and touch it.)

Go back to the feeling of the clear and strong golden light from above. Relax, close your eyes and think or say with your own words, which planet you want to see. You should only pick one at a time.

Close your eyes and try to see the color of the planet within you first, as number one.

to feel or experience eventual wind, water etc. as number two

inhale and try to experience any scents as number three

open your mouth slightly and try to experience taste as number four.

and relax and try to hear any sounds as number five

Don't rush through this; give yourself time to experience and even repeat the steps above.

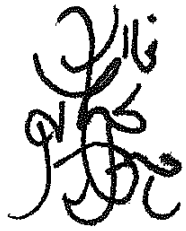

Stones, part 1, for Ceremony 1

One powerful combination is Morganite and Nuummit together. This stone energy opens up almost everything within spiritual seeing. This combination is especially good for seeing images from, take in, carefully studying or to feel, other planets.

If you don't want to buy these stones you can look at them on the internet or in books and try to take in their energy. You can also print pictures of them or to use their unified stone sign, see below.

It is naturally best to use the physical stones, or to look at pictures of them and to use the Sign below.

The stone sign for Morganite and Nuummit together for Ceremony 1.

Sign 1, for Ceremony 1

Symbol 1, for Ceremony 1

Transition Signs

These signs are called Transition Signs. They are always the same for all worlds that are crossing over into a higher dimension, just as we are about to do now.

This form of signs exists on a big scale and there are lots of them. We have received some of them now; such as ones that are good for us humans and for our thoughts and feelings. Some can feel insecure or worry about the future and the entire Shift. By introducing these signs now, they manifest themselves on the Earth, even to people who don't have the News Letters.

You can give these Signs to yourself or to others as well as to animals and nature. On humans they work the best on the Heart Chakra or the Third Eye.

If you want to, you can just place them in your home for a while and let them manifest themselves in their home etc. The signs have a possibility to attract living matter and plastic. If you wrap them in plastic or laminate them, they will emit more of their energy. I have no idea about how that works, but… it works.

<u>Signs for…</u>

Liberation, Spiritual Insight and Flow

Liberation, spiritual insight and flow, for freedom, insight and a flowing feeling in all processes at the time of a Shift.

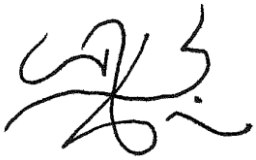

Balance, Harmony and Understanding

Balance, Harmony and Understanding, for a deeper understanding which will give you a balance and a sense of calmness before a Shift.

Insight, Overall Outline and Intention

Insight, Overall Outline and Intention; to understand all the different steps at the time for a natural Shift.

Openness, Receiving and Acceptance

Openness, receiving and acceptance to be ok with the help we will be given by universal beings before a Shift.

Possibility to Adjust

Possibility to adjust; to be flexible at the time of the Shift.

Manifesting, Consolidating and Balancing

Manifesting, consolidating and balancing energies within us that will give us our Shift.

Wish and Hope
Wish and hope for the future, after the Shift has taken place.

Trust and Gratefulness
Trust and gratefulness in order to learn how to feel, and show both, during and after the Shift has taken place.

Don't forget everything you have received up until now…
Use all the old information that will come to you when you look through old News Letters. Think about that the Hand Prints and the Diamond Shape etc. are very important now and easy to use or just to be placed in your room. And please, look for and contact, your own new Spiritual Leader if you haven't done so already.

You can share this letter as well with others!
Hugs Channie
