Newsletter #4

Hi,

This is Newsletter 4. Most of the information in this Newsletter is about all the ways you can use the Palette of Signs from Newsletter 3. Now it is appropriate to share Newsletter 3 & 4 with your family and friends. Don't forget to give the people you share Newsletters 3 & 4 the Palette of Signs.

Things are really moving forward with our spiritual evolution, the New Earth and the shift to a higher dimension, even if you are not aware of these changes by seeing or feeling them, there is still a lot going on. Everything is on its way even though time is half gone and is passing. It seems like a long time of waiting has gone by, but it really is just a very, very small little moment that has passed of the total time. This event that is happening during our time of living is something that is very exciting.

Palette of Signs

Think of the Palette of Signs like a pie or cake that can be divided into 4 or 16 individually equal pieces. You will number the pieces for the easiest and the best results when working with your pieces. Number the pieces that are closest to the middle of your palette (the inner circle of Signs) or on the backside of each piece or section that you have decided you want to have. It will either be numbered 1-4 or 1-16.

You will be the one to choose which piece or slice of the Palette that will be your #1 and then follow in a clockwise direction with the continuation of your numbering. Laminate your numbered Palette of Signs and then cut out into your pieces or laminate each desired number of sections piece by piece. Cut out the slices for what is needed and for what you are going to do with them. There will be many times you will also be using the entire round Palette of Signs. When using your cut up Palette Pieces, you will determine how much time you desire for each of the following applications unless there is a specific time indicated.

When the more pointed part of your either 1-4 or 1-16 pieces are laying inward or pointing towards something placed in the middle, it activates the message, knowledge, energy and the force of what is laying there in the middle, for example, a specific sign, the Diamond Shape, etc. When the pointy part of the pie pieces are pointing out wards, they are lighting up and radiating out the message, knowledge, energy and the force of the Signs out into the surroundings, people and pets that are residing there.

Meditation

Before starting your meditation time do the following: place a round Palette of Signs with the Palette lying upwards with your strongest own Sign, Relativity Sign, Esé, etc. on top of the Palette and on top of that, you place a lighted candle.

For the Different Chakras of the Body

When using this application, you will need the Palette cut equally into 16 pieces. Lay each piece of the 16 pieces on one chakra one at a time. The switching of the pieces can be done relatively quickly. Make sure you place them one at a time in their numbered sequence. This will upgrade and spiritually prepare you and your chakras for a higher dimension.

Where You Live

Piece by piece of your 16 pieces can be spread out in your garden/yard, around your house or around the apartment complex where you live. This will upgrade your house or apartment's spiritual quality. This will work best if you have a system and a clear order of your numbered pieces. As stated before, you have decided which piece is your number one piece and then clockwise numbered 1-4 or 1-16. This will always help you place them in the correct order. The pieces can also be laid out inside of your house or apartment following the numbered sequence of your pieces in a logical way. This will upgrade your house or apartment's spiritual quality and spiritually prepare the people that live there including your pets if you have any. Let the pieces lay there within your living space (or hidden) for the amount of time of your choosing.

They can be laid out like a circle or square within the space or shape of where you are living. You can also put the individual pieces one by one in a flowerpot for the plant's spiritual quality. I recommend that you allow a few days between the pieces placed in the flowerpot.

Where You Work

You can take one piece at a time of your cut Palette pieces to where you work or at school following the sequence of your numbered pieces. The piece can be well hidden or just laid out. At work or at school the pieces will help your coworker's spiritual evolving and understanding that they wish for themselves. They might not be aware of this within themselves right now or their wishes to grow and expand . . . yet.

At the Gym

Take one piece of the Palette at a time in their numbered order to the gym, where you train, exercise or with you when you take a walk. The pieces will help you have better circulation, stamina and become physically stronger. They will have a positive effect on how you take in oxygen, help all the muscles in your body and trim and slim you in a wonderful way. It will spiritually help your consciousness to know what your body needs and have a better self-awareness and love for yourself. You will notice that you will be taking better care of yourself.

As an Energy Boost

As an energy boost, you can lay one piece at a time on a glass of water. Choose one piece for each day in the correct sequence of numbers. This will raise your body's functions, help your organs and stimulate your brain. This is not really a healing treatment, but more of a spiritual preparation for what is to come.

Underneath Things

You can lay one piece at a time following the sequence of numbers under things. This will give the object a spiritual boost. Anything such as cell phones, computers, watches with batteries and anything that puts out radiation will give it balance. You can place it under your credit

card or money and the Palette pieces will see that you are spiritually spending money in the right way.

Diamond Shape or Handprints

With the help of using the 4 Palette pieces or the 16 pieces, you can spread out energy, knowledge, etc., from the Diamond Shape or Handprints. Use the pointed end of the pieces inwards towards them first and then turn them so they are pointing outwards. Make sure you follow the order of the sequenced pieces when you lay them around either the Diamond shape or the Handprints.

Playing With the Kids

You can turn this into a game by hiding the pieces of the Palette of Signs around your house and then the children can search around and try to find them. This game will stimulate their spiritual growth and evolving. You can also make a playful spinning top by using a round laminated Palette of Signs with a hole in the middle of the Palette with a pin sticking through to the other side so the Palette can spin around on the pin.

With Greater Concentration of Seriousness With Using the Palette of Signs . . .

To Activate 6-Point Systems Part 1 of 3 Parts

Start off by dividing the Palette of Signs in to 4 equal pieces. You will also need an entire whole round Palette of Signs. With Part 1 you can activate a small and temporary 6-point system with real White Time. Begin by choosing a location that is outside or inside your home. You can use your hands, pendulum or dozers (divining rods) to find the perfect location if you want to. Lay the round Palette of Signs with the Signs facing downwards on your chosen location. Lay 2 of the 4 pieces with the Signs facing the Signs. Let the pointy end point outwards in a northeast direction. Lay the two remaining pieces with the Signs towards Signs with the pointy parts pointing downwards in a southwest direction. This will create a temporary 6-point system with real White Time within it. You can then meditate within this system and be like a

more open channel and psychic channel when being within it. In the future, your own little 6-point system can be made and used in more serious ways. There will be more information about this and how to do it, but not until you first know a little bit more about what you should do and where you want to go. Therefore, this is Part 1 of 3 Parts. As you might already know, 6-point systems and White Time is used for traveling out in the Universe with or without a spaceship.

Future Communication and Contact Within the 6-Point System

Later you will have your own specific Extraterrestrial Sign called your own "going over" sign. This will be laid in the middle of the Palette of Signs. More information about this will come later.

As a Sun

Divide your Palette of Signs into 16 pieces and also have a round entire Palette of Signs. Lay the Palette of Signs on the place that you have chosen with the Signs facing downwards. Lay the 16 pieces around the round entire Palette of Signs as rays with the pointy ends pointing inwards with the Signs facing upwards. This will activate the Palette of Signs full potential. After 20 minutes turn the entire round Palette of Signs upwards and then turn your rays so that the sharp pointy ends are now pointing outwards like the real rays of a sun. This will spread out the spirituality. Make sure the pieces are laid out in correct numerical sequence. You can now let the pieces lay as long as you feel is appropriate. You can reactivate the process at any time by doing it again in the above specified sequence.

Activation Tower

If you have a quartz crystal with a flat base so that it can stand up, you can make what is called an Activation Tower. You can use either 4 or 16 pieces and a round Palette of Signs at a place of your own choosing either outside or inside. Lay the round entire Palette of Signs with the signs facing upwards with the crystal placed in the middle on top of the Palette. Lay out 4 or 16 pieces with the signs facing upwards pointing first inwards for 20 minutes and then turn the sharp pointy part

pointing outwards. This will activate a very strong spiritual activation tower that is pumping out spiritual forces.

Happy Holidays and Happy New Year!

Warm Hugs from Channie
