We can use these signs and symbols in our lives now, to help protect us against negative energies, to help support us through these changing times during the spiritual evolution, to bring more understanding of what is to come and to bring more Divine Love and Light into our lives and so much more...

Protection Symbols: To be worn at ALL times when you are doing a healing session.

This Symbol builds a defence against negative forces, both physical and non-physical.

TZITZAN will protect you against spiritual negative forces. This symbol can be in black/white or in colour.

LING OAOU will protect you against physical negative forces.

If you want to protect yourself against negative energies you can use these Light Extraterrestrial Protective Symbols. To protect your home you can put them on a wall, behind books, mirror or a picture. You may have them on show, it's up to you! You should not place them behind anything red. Keep them in your wallet or have them with you in a car.

The symbols will protect you from negative forces and help you balance your life. You can use them, if you are going through an emotionally turbulent time in your life.

Ideally wear them, keep them on you at all times, especially if you are healing or going to negative places. Wear them round your neck, in your pocket or even tuck them in your bra!!

It doesn't matter which order you keep them. Do treat these symbols with respect.
Copy these, use ALL 3 signs together. Make them smaller or larger for your individual use.
